I should say @RPO's CPP is totally a new concept. I tried it and I am happy it worked for me. I will keep taking their services.

- Sathyakala - CEO, W3 Technologies, Pune

I faced immense difficulty as an MSME in setting up a team on-time. Being in the chemical industry, getting the right candidate was never easy. Their profile pack solution was of great support in knowing the Knowledge, Skill & Abilities of candidates.

- Senthil, Proprietor, Jentex Alkalies, Chennai

If you don't want to invest on too many things for hiring, I would suggest startups and mid sized companies to look at @RPO services.
